## INSTRUCTIONS

1. Insert the DVD into your drive.
2. Click on the 'Start' menu, and select 'Run'.
3. A 'Run' dialog box should appear at the bottom left corner of your screen... click on 'Browse'.
4. Locate the drop down menu at the top of the box and click on 'My Computer'.
5. Select your computer's DVD drive and double click to open.
6. Locate 'Files of Type' drop down box at the bottom and select 'All Files'.
7. Select the desired file from the file options pictured below and press 'Open'.

8. Finally press 'Run' to load the selected file onto your computer.
